Planting, pruning, felling, stump grinding, charcoal, logs, processing, playgrounds, sculptures, art, furniture, consultancy, education

With a combined experience of over 150 years working with trees, FTS Ltd provides a wide range of quality tree services to domestic clients, local authorities, parks and estates, construction companies, property managers and schools in south manchester and the north west.

Sustainability has always been at the forefront of our approach. We supply local timber to local craftsmen for local markets. We aim to maximise the asset of the timber from dead, dangerous or unwanted trees being felled and pruned within the urban setting.

Connecting with our environment

- Local clients
- Local materials
- Local labour

Working with schools and community groups

- Fitting in with existing strategies and targets
- Common sense, cost effective, environmentally sound solutions
- Practical advice for the eco-staff and students
- Eco based lessons and school assemblies
- Tree and timber related demonstrations
